

# BPC-157/TB-5

- Recovery & Repair Peptide Blend

## JOIN THE NUVEXA PERFORMANCE EVOLUTION!

BPC-157/TB-5 combines two widely researched peptides recognized for investigational recovery and tissue support applications. This advanced peptide blend is designed for professionals exploring recovery-focused peptide protocols.

### Product Information

**Product:** BPC-157/TB-5 10mg

**SKU:** BPC-157/TB-5

**Dose:** 10mg / 10mg

**Description:** Lyophilized peptide blend in sterile vial

**Reconstitution:** Bacteriostatic water recommended

**Recommended Delivery:**

- Research applications only
- Research-grade peptide blend
- Designed for recovery-focused research
- Professionally prepared sterile formulation

### Discover the Science

BPC-157/TB-5 continue to be researched for their relationship to tissue support, recovery pathways, mobility optimization, and performance-focused applications.

### Recovery Meets Precision

Our lyophilized preparation process is designed to preserve peptide quality and support consistency throughout storage and handling.

### Transparency and Trust

Nuvexa prioritizes quality, transparency, and professional peptide standards in every recovery-focused formulation.
