

# SEMAX

- Cognitive Wellness Peptide Formula

## JOIN THE NUVEXA PERFORMANCE EVOLUTION!

Semax is a premium research peptide developed for investigational applications centered around cognitive wellness, focus support, and neurological pathway research.

### Product Information

**Product:** Semax 10mg

**SKU:** SEMAX10

**Dose:** 10mg

**Description:** Lyophilized peptide powder in sterile vial

**Reconstitution:** Bacteriostatic water recommended

**Recommended Delivery:**

- Research applications only
- Research-grade cognitive wellness peptide
- Professionally prepared sterile formulation

Designed for neurological research protocols

### Discover the Science

Semax is being explored for investigational applications involving focus, cognitive wellness, and neurological support pathways.

### Stability and Performance

The lyophilized preparation process supports peptide integrity and consistency for professional research handling.

### Transparency and Trust

Nuvexa remains dedicated to transparency, consistency, and high-quality peptide innovation.
