

SERMORELIN

- Wellness & Recovery Support Peptide

JOIN THE NUVEXA PERFORMANCE EVOLUTION!

Sermorelin is a research-grade peptide designed for investigational applications involving growth hormone support pathways, recovery optimization, and wellness-focused protocols.

Product Information

Product: Sermorelin 5mg

SKU: SERMO5

Dose: 5mg

Description: Lyophilized peptide powder in sterile vial

Reconstitution: Bacteriostatic water recommended

Recommended Delivery:

- Research applications only
- Research-grade peptide formulation
- Professionally prepared sterile vial
- Designed for wellness-focused peptide research

Discover the Science

Sermorelin is being researched for its relationship to wellness support, recovery optimization, and performance-focused peptide applications.

Convenience Meets Precision

Lyophilized preparation helps preserve structural integrity while supporting professional handling and product consistency.

Transparency and Trust

Nuvexa formulations are developed with purity, consistency, and research-focused quality standards.
