

TIRZEPATIDE

- High-Potency Metabolic Research Formula

JOIN THE NUVEXA WELLNESS REVOLUTION!

Tirzepatide provides a higher-concentration peptide option designed for advanced investigational metabolic applications. This premium formulation supports on going peptide research focused on metabolic balance, appetite pathways, and wellness optimization.

Product Information

Product: Tirzepatide 60mg

SKU: TIRZ60

Dose: 60mg

Description: Lyophilized Tirzepatide peptide powder in sterile vial

Reconstitution: Bacteriostatic water recommended

Recommended Delivery:

- Research and investigational use only
- Research-grade peptide formulation
- High-concentration sterile preparation
- Designed for advanced peptide protocols

Discover the Science

Researchers continue studying Tirzepatide for its role in metabolic pathway support and body composition management. Its growing presence within peptide science highlights its investigational versatility.

Convenience Meets Performance

The 60mg concentration offers enhanced protocol flexibility while maintaining the stability benefits of lyophilized peptide preparation.

Transparency and Trust

Nuvexa prioritizes consistency, quality, and professional-grade peptide manufacturing standards across every formulation.
